

Your DNA lab will move  
**faster**  
if it can see where it's going.

Fragment Analyzer™ replaces lab-on-a-chip for RNA, Next Gen Sequencing, gDNA and SSR Genotyping applications.

Fragment Analyzer™ customers since its January, 2012 introduction:

- ◆ 20 government institutes and labs in Germany, France, Austria, Italy, Switzerland, the United Kingdom, Japan, China, Brazil, Canada and the U.S.
- ◆ 18 leading U.S. plant science universities
- ◆ 13 medical genetic/genomics testing firms
- ◆ 7 U.S. medical schools
- ◆ 6 of the 10 biggest seed companies in the world
- ◆ Biofuels and pharmaceuticals manufacturers

**“We found speed, quality, resolution and versatility in the Fragment Analyzer.”**

*Dr. Sunil Chandran  
Senior Scientist, Amyris, Inc.*
